

## DELUMPER Crusher

The ultra compact DELUMPER® 1065N by **Franklin Miller Inc.** (Livingston, NJ) is a crusher specially designed to handle compressed products, silver, and other agglomerates, minerals, plastics, and more. This unique unit has a special hardened alloy one piece cutting drum fitted with over 200 tapered teeth. The result is a crusher with a smooth, effective operation that easily processes bulk solids, reducing them with minimal fines, overgrind, or heat-rise. The DC1065N is supplied with rugged outboard bearings protected by shaft seals to keep powders within the cutting chamber. Product is crushed by the cutting drum intermeshing with special sizing combs and discharged out the bottom.
