

Fluorescent Lighting Tester

Milwaukee Tool Corporation (Milwaukee, WI) continues to expand their test and measurement line with a new product for troubleshooting fluorescent lighting. With the ability to test fluorescent gas, check pin connections, and test ballasts, the Milwaukee® Fluorescent Lighting Tester can allow technicians to troubleshoot an entire building in half the time. Complete with a 2.5-foot, fully retractable antenna, users can easily reach lighting fixtures. Features include a removable antenna adaptor to increase flicker response, audible and visual indicators for easy readings, a built in LED work light to illuminate dark work spaces, and a rugged over-mold grip for increased durability.
