

Helical Bevel Gear Drives, Motors

Boston Gear and Bauer Gear Motor, two **Altra Industrial Motion** (Braintree, MA) brands have combined their gearing expertise to offer the innovative Series 2000 product line. Series 2000 right angle helical bevel gear drives and motors are designed with unique performance and convenience features to meet requirements in a wide variety of applications including dairy and bakery mixers, bottling lines, unit conveyors, and palletizers. The Series 2000 C-face gear drives feature mounting registers and keyless tapered bushings for fast, easy installation. Units require low maintenance with rounded housing surfaces for easy cleaning, premium acrylic paint pigmented with 316 stainless steel flake for high corrosion and abrasion resistance.
