

All Hazards Guide

Fastenal (Winona, MN) has introduced an [All Hazards Guide](#) [1]. Featuring everything from tools and equipment to PPE and sanitation items, the guide is part of Fastenal's initiative to support government emergency preparedness, response and recovery efforts. The company's emergency supply chain initiative, known as Blue Team Responds, includes aligning company-owned vehicles to meet the needs of local, state, and federal agencies; vertically integrating with key suppliers to respond more quickly during events; and developing core emergency management product categories like safety products, generators, pumps, sandbags and water. Fastenal personnel can support on-site recovery efforts with mobile trailers, recovery containers, and Internet-enabled mobile command centers, essentially bringing a Fastenal "store" to the response site.

Check it out at www.fastenal.com [2].
