CM Bundling Clip

Columbus McKinnon Corporation (Amherst, NY) has announced the CM Bundling Clip. From logging roads to the oil fields, the CM Bundling Clip is built for heavy-duty bundling applications in the toughest industries. When lifting, storing, or moving steel tubing, pipes, or precast concrete, its easy-to-assemble U-design allows technicians to drop or lose fewer parts. The CM Bundling Clip eliminates shear points and damage to wire rope, and prevents the choker from going slack and the load spreading after being unhooked. The clip is available for use with 3/4-, 7/8-, 1-, and 1-1/8-inch wire rope chokers
