

Digital Force Gauges

The Series 4 and 5 Digital Force Gauges from **Cooper Instruments & Systems** (Warrenton, VA) are designed for tension and compression force testing in a wide variety of industry applications. Both gauges are available in working force ranges of 0.12 to 500 pounds. The Series 4 gauge features a sampling rate of 3,000 Hertz, with resolution of 1/2000 of a unit and an on-board memory for up to 50 readings. The Series 5 gauge has a sample frequency of 7,000 Hertz (resolution of 1/5000 unit) and on-board memory for up to 1,000 readings. Both gauges feature a large, backlit LCD screen for easy reading. The gauges may be handheld or test stand mounted.
