

Cleaner Pins

Innovative Products of America

Innovative Products of America® , Incorporated (Woodstock, NY) has introduced a new tool to clean male and female pins on common flat pin electrical connectors. The 3-Piece Diamond Grip Terminal Cleaners (part #8040) feature a durable and abrasive coating for removing corrosion from terminals to enhance electrical connections. Each of the three sizes was precision manufactured to fit the most common connectors. To clean, clasp the tips together while gripping a male pin, or separate them to clean inside of a female terminal. A bonus file surface is located on the handle for everyday cleaning tasks. Packaged inside of high quality holster, this tool set provides a simple solution to the problem of cleaning hard-to-reach terminals.
