Drum Latching Lid

New Pig

Access 30-gallon fiber drums quickly with the convenience of a PIG® Drum Latching Lid with Fast-Latch Ring from **New Pig** (Tipton, PA). Designed to open and close easily with one hand, the PIG® Latching Drum Lid for Fiber Drums keeps drum contents dry and pure without hassle, according to the company. Ideal for product dispensing and waste collection areas, the lid features self-aligning tabs on the ring for a secure fit on 30-gallon fiber drums. The continuous 3-inch wide EVA gasket and locking mechanism seals to keep drum contents secure. A removable hinge pin allows the lid to be removed without loosening the band to facilitate container dumping, and the Fast-Latch drum ring allows the lid to be moved from one drum to another without wrenches or other tools.
