

ESD Workstation Systems

Lista International Corporation

Lista International Corporation's (Holliston, MA) electrostatic dissipative (ESD) Workstation Systems are now certified to meet specific electrical property requirements, assuring static dissipation at a safe rate. Lista pedestals and workbench components can be protected by static dissipative powder-coat finishes that are available in three standard colors. The workbenches also feature work surfaces and shelves with static dissipative plastic laminate. Work surfaces and shelves have ground bolts with a 12-foot grounding cord assuring contact for proper grounding. Lista Workstation Systems can be configured in a variety of heights and lengths, with cabinet pedestals and/or legs. Lista offers a variety of accessories, from electrical outlets to riser shelves to parts racks.
