M18 Fuel Drills

Milwaukee Tool

Milwaukee Tool (Brookfield, WI) has introduced the M18 FUEL™ ½-inch Drill/Driver (2603-20/22) and M18 FUEL™ ½-inch Hammer Drill/Driver (2604-20/22)—tools that integrate ground-breaking cordless technologies to deliver up to 10X longer life, 25 percent more power, and 50 percent more run-time, according to the company. The POWERSTATE™ motor can provide up to 725 inch-pounds of torque, and can reduce noise and cool rapidly. With Milwaukee® durability built into each pack, the REDLITHIUM™ battery operates cooler and performs in climates as low as 0 degrees F with fade free power. A battery fuel gauge displays remaining charge for less down time on the job.
