

## New Floor Marking Solutions

Stop-painting.com

**Stop-painting.com** (Wake Forest, NC) has added two floor marking solutions to its Superior Mark brand industrial floor marking line, the Superior Mark X Markers and T Markers. These new warehouse floor tapes feature Superior Mark's patent pending design with beveled edges and recessed adhesive to maximize durability. These new floor markers create a more durable and cost effective way to visually organize the industrial floors of factories and warehouses, says the company. The pressure sensitive adhesive is recessed to just behind the beveled edge so when a forklift pushing a pallet exerts force against Superior Mark tape, the pallet will ride up and over the beveled edge, rather than dislodging the floor tape.
