

BAFWorks App, Controller

Big Ass Fans

Big Ass Fans (Lexington, KY) have never been so easy—or fun—to use, thanks to the newly-released BAFWorks™ app and fan controller, says the company. BAFWorks gives users control over a virtually unlimited number of Big Ass Fans from a single location and saves time by eliminating individual controls in large facilities. BAFWorks provides access to real-time fan speed and status, all of which can help maximize year-round energy savings with the swipe of a finger. A lockout feature with password protection provides security and control. BAFWorks is currently available for all industrial overhead Big Ass Fans and includes an iPad, the BAFWorks gateway module, and mounting bracket.
