

DoorCom Wireless Intercom

Ritron Inc.

Designed to provide wireless communication from a Loading Dock or Receiving Door, the DoorCom™ wireless intercom from **Ritron Inc.** (Carmel, IN) can dramatically improve efficiency and security at virtually any facility, according to the company. This proven system installs at any entry point to permit visitors to announce their arrival. The long-range performance allows radio-equipped personnel to receive a call from practically anywhere in the building and instantly answer back using a portable 2-way radio or desk-top base station. DoorCom™ is ideal for installation at delivery/receiving door, employee entrance, entrance or lobby, will-call/pick-up, loading dock, factory floor, and more.
