

Sharpe Sludge Concentrator

Sharpe Mixers

The Sharpe Simfloc 5.0 in-line sludge concentrator from **Sharpe Mixers** (Seattle, WA) enhances the dewatering process for better solids capture, allows higher molecular weight polymers with more efficient usage, and increases the percentage of cake solids, says the company. Designed for continuous 24/7 service, all wetted parts are fabricated from 300 Series stainless steel for optimum durability and corrosion resistance and it has a wash-down inverter-duty motor with a leak-free mechanical seal. The Sharpe Simfloc 5.0 in-line sludge concentrator can be mounted in any orientation and the mixing chamber can be rotated to meet piping requirements. The Sharpe Simfloc 5.0 in-line sludge concentrator is offered for a 60-day trial. Price quotations are available upon request.
