## Yale Cable King

Columbus McKinnon Corporation

**Columbus McKinnon Corporation** (Amherst, NY) has made its Yale Cable King electric wire rope hoist available as a Quick Ship hoist. Available in two Quick Ship configurations—a 5 Ton model and 10 Ton model—these Yale Cable King hoists have been engineered for shorter lead times and broad appeal, while living up to our Columbus McKinnon's tough standards of dependability and durability, says the company. Lead time on the two Quick Ship hoists will be 4 to 6 weeks. In addition to the two pre-configured Quick Ship models, the Cable King hoist will also remain as a fully customizable hoist with standard lead times. All Cable King models are available through the Columbus McKinnon network of crane builders and distributors.

*The new product brochure and technical specifications for the Cable King Quick Ship hoists may be viewed at [www.cmworks.com/cablekingquickship](http://www.cmworks.com/cablekingquickship) [1].*
