

Verisurf X

Verisurf Software, Inc.

Verisurf Software, Inc. (Anaheim, CA) has announced the newest release of Verisurf X, version 6, which is loaded with innovative software features that enhance in-process, portable inspection, tool building, CATIA interoperability, and 3D scanning and reverse engineering, says the company. Verisurf X6 features and enhancements include:

- Enhanced Windows 64 bit performance for working with 3D scanner point clouds, and large CAD assemblies.
- New report manager with customizable HTML, Excel, XML, PDF, document encryption, document verification checksum, and AS9102 first article inspection report generator.
- New CATIA V5 R22 translation validation support.
- New 3D SPC option for integrated statistical process control of key characteristic inspection measurements.
- New metrology device interfaces.
