

Aluminum Scissor Decks

Easy Access Industrial Design, Inc.

Easy Access Industrial Design, Inc. (Peachland, BC) has introduced its new in-house designed line of aluminum maintenance platforms. The Scissor Deck industrial maintenance platform designs, with US patent pending, are connectable spring assisted manual lift platforms that allow for continuous platforms with safe work zone access up to 7 feet deck height. The Scissor Deck product line includes benefits of a removable extension ladder which stows under the deck when folded flat. Product features include multi height adjustability, interchangeable full surround handrail system, and high weight capacity locking wheel options. Operators may approach the deck from deck end or either deck side with a removable extension ladder which stows under the deck for transport.
