

# Instantfoam Deluxe Hand Sanitizer

Armchem

**Armchem** (Fort Lauderdale, FL) has introduced Armchem Instantfoam Deluxe Hand Sanitizer. This new medical grade hands-free dispensing system, which is perfect for high traffic areas, is highly effective in killing 99.999 percent of most common germs, but won't dry out hands, according to the company. This perfume and dye-free product offers 70 percent alcohol content, making it effective against common bacteria, including MRSA, E.Coli and Influenza. Although the alcohol content is higher, Armchem Instantfoam Deluxe actually leaves hands softer due to a combination of proprietary emollients and lotions, says the company. Because the product is foam, it can save on costs since one application delivers nearly twice the amount as gel products of the same size.
