

## Armed Workwear

Armed Workwear

**Armed Workwear's** (Salt Lake City, UT) new pants will save wearer's knees with their built-in, removable knee pads, says the company, while nine custom pockets will stop the "hunt for tools game." The pockets allow for tool storage on the front, sides, and back of the wearer's leg. Designed for comfort with a loose dungaree fit—loose through the hips and thighs—the pants' stress points are double and triple stitched. They are available in white and khaki.
