

Blasting Light

Lxlite.com

The BL-150W-PM LED Blasting Light from **Lxlite.com** (Kemp, TX) produces 14,790 lumens of light output for effective coverage of up to 18,000 square feet of work space. This portable LED blasting light is designed for high durability and convenient operation with an IP68 rated waterproof LED lamp that produces output comparable to 400 watt metal halide lamps while using a fraction the amount of electrical power. The 150 watt LED lamp assembly is waterproof and constructed of extruded aluminum with an unbreakable polycarbonate lens for resistance to damage from water and impacts. The lamp assembly is fitted with Cree Xlamp© LEDs, which provide 50,000 hours of operation and the most reliable and powerful LED light output available, according to the company.
