

CREST® Condensing Boiler

Lochinvar, LLC

Lochinvar, LLC (Lebanon, TN) has announced that its advanced CREST® Condensing Boiler is now available with inputs up to five million Btu/hr. Orders are currently being accepted for the new five million Btu/hr (FBN5000) and four million Btu/hr (FBN4000) models. Along with the addition of the larger models, Lochinvar has also expanded the line to include a dual fuel gas train. Additional product enhancements include lower firing input derate numbers in high altitude applications. Offering thermal efficiencies as high as 99 percent, the newly extended CREST line brings exceptional energy-efficiency and design flexibility to the largest commercial applications, says the company.

For more information about the new CREST models and features, visit www.Lochinvar.com [1].
