

## CrimpCenter 36 S

Schleuniger

The new **Schleuniger** (Manchester, NH) CrimpCenter 36 S replaces the CrimpCenter 36 with improvements and a stylish new look, says the company. Systems throughout the machine have been upgraded to enhance precision and performance. The CrimpCenter 36 S accommodates up to six processing stations for application flexibility. The machine features a touch screen monitor and intuitive operating software. New quick-change mechanisms, wire feed assist, and integrated lighting helps to make set-up times fast and simple. The CrimpCenter 36 S is compatible with Schleuniger's ToolingShuttle system for fast changeovers of the applicator and terminals. The CrimpCenter 36 S boasts standard TCP/IP protocol for easy machine networking.
