

Ratchet Style Hand Tools

BURNDY

The new **BURNDY**® (Manchester, NH) Y10MRSA1 is an ergonomic, ratchet style hand tool designed to accommodate BURNDY® J dies (purchased separately) from #22-#10 AWG. This tool is meant for use on various Small HYDENT™ connectors and HYSPLICE™ splices; insulated or bare. Color-coded J dies offer high pull-out force terminations exceeding SAE specifications in most cases and provide a UL Listed connection when using BURNDY UL Listed connectors. The lightweight Y10MRSA1 features a compact narrow nose useful in tight access areas along with an ergonomic design requiring less handle force for ease of operator use.
