

Explosion-Proof Panel Heater

CCI Thermal Technologies

The Norseman™ Explosion-Proof Panel Heater from **CCI Thermal Technologies** (Edmonton, AB, Canada) is designed specifically for freeze protection of control enclosures in locations where explosive atmospheres exist. Typical applications include control cabinets, instrument enclosures, and small storage rooms or cabinets for volatile products. The Norseman™ XPA Explosion-Proof Panel Heater's custom extruded aluminum convector assembly features a high density fin array to maximize surface area and ensure safe and efficient convective heat transfer.
