

Genie® Vertical Lift

Terex Corporation

Terex Corporation (Redmond, WA) has introduced the new Genie® GR™-26J Runabout self-propelled vertical mast with jib for the ANSI and CSA markets. This unit is the latest in the Genie® vertical lift family of products and is ideal for locations where outreach is required in a confined space. The new vertical lift provides users with a wide range of motion for accomplishing jobsite applications ranging from warehousing to maintenance. The unit offers an “up-and-over” maximum clearance of 21 feet, 10.5 inches; a maximum working height of 31 feet, 9 inches; and a maximum working horizontal reach of 10 feet, 1 inch. Outstanding 140 degree jib range of motion and 350 degree non-continuous hydraulic turntable rotation enable the unit to deliver precise positioning of loads.
