

# Technology Showcase

Okuma America Corporation

**Okuma America Corporation** (Charlotte, NC) and Partners in THINC will hold the 2012 Technology Showcase December 4 through 6 in Charlotte, North Carolina. The event will feature 26 CNC machines, including the MCR-BIII double-column machining center, the new MU-10000H 5-axis horizontal machining center, and other CNC machines that were shown at IMTS. A wide variety of equipment, including small and large horizontal lathes, 5-axis machines, multi-function machines and vertical and horizontal machining centers will be tooled up and running. In addition to the machines and cutting demonstrations, the new Okuma THINC®-OSP-P300 control will be available for hands-on trials. Featuring applications including the Collision Avoidance System, One-Touch IGF, 3D Virtual Monitor, Caron Engineering's TMAC, and dataZen's Mira.
