“The Walk-About” Steel Toe Oxford

Redback

Redback (Escondido, CA) has introduced “The Walk-About” Steel Toe Oxford. This versatile low cut, black oxford shoe with three eyelet lacing delivers the same unsurpassed comfort, durability and safety as the company's indestructible work boots, it says. Made from 100 percent full grain leather, this shoe is great for both the office and the field. TPU/PU soles provide maximum grip on all types of terrain. The Anatomic Support System cradles the foot to reduce arch sagging and prevents foot strain and related leg and back pain. A two-component Urethane Air midsole enhances shock absorption and energy return. The sole also keeps it's flexibility in cold temperatures and is Oil/ Acid and Slip resistant.

This shoe is available through a local Tool Distributor at www.redbackboots.com [1].
