## LED Flashlight

Larson Electronics

The EXP-LED-FX4 Intrinsically Safe LED Flashlight from **Larson Electronics** (Kemp, TX) is designed to provide an extremely durable and powerful light source for operators who require intrinsically safe approval as well as highly reliable operation, says the company. Producing 90 lumens and able to run for up to 80 hours on a set of batteries, this LED flashlight carries intrinsically safe approval and can withstand extremes of weather and rough handling, making it ideal for use in hazardous locations as well as tactical and industrial applications.
