STORE-MAX Shelf Bins

Quantum Storage Systems

Quantum Storage Systems (Miami, FL) has announced its new STORE-MAX 8-inch shelf bins, which are in stock for immediate shipment from Miami. With 95 percent more storage capacity over standard 4-inch shelf bins and 65 percent more than the 6-inch, Quantum's STORE-MAX Shelf Bins are an industry first and now an industry standard, says the company. Manufactured from high density polypropylene, these bins feature a molded-in label holder, built-in rear hang-lock, and wide hopper front for easy access to contents. The bins are available in yellow, red, blue, and clear.
