

Abrasive Brush Capabilities

Abtex Corporation

Abtex Corporation (Dresden, NY) has published a combination catalog and capabilities brochure for its extensive line of abrasive filament brushes. The capabilities section helps customers design custom brushes and systems, says the company. The catalog contains specifications for current applications. The brochure has sections on the company's application lab, automated deburring systems, engineered custom brushes, in-machine deburring, and Artifex elastic-bonded abrasives from Germany, which Abtex distributes. The catalog section contains specifications for traditional Abtex brushes, including disc, composite hub radial wheel, copper center radial wheel, end, tube type and Flex-Hone® brushes.
