Housekeeping Cart

Creform® Corporation

In support of 5-S, the **Creform® Corporation** (Greer, SC) developed a new housekeeping cart design that conveniently stores and transports brooms, dust pans, mops and buckets, and hand brushes, plus trash containers and cleaning supplies. The top and bottom 24- X 24-inch pans have a 3-inch lip to contain spills and leaks. Hooks on extended pipes on three sides provide storage for cleaning tools and mop handle retainer pipes are located on the front. The cart's frame is constructed using the Creform® System of plastic coated steel pipe, joints, and hardware accessories to produce a lightweight, maneuverable, and flexible portable clean-up station, according to the company.
