

Pure Flow Series

Coxreels®

Coxreels® (Tempe, AZ) has announced the addition of the Pure Flow Series. The Pure Flow Series has been designed specifically for breathing air and clean fluid transfer applications. These models have non-corrosive air and fluid paths with high quality stainless steel full-flow swivel and Nitrile non-toxic food grade seals to ensure clean, non-contaminated, safe, and reliable transfer of breathing air, potable water, or other clean fluids, says the company. These reels can provide safe storage any hose requiring sanitized and non-contaminated fluid transfer applications. The Pure Flow reels are offered in spring rewind, hand crank, and motorized retraction options.

For further information on the Coxreels product line, visit www.coxreels.com [1].
