

Stargate-O-Port-Valves

SVC

For the most critical applications, **SVC's** (Monroe, NC) Stargate-O-Port-Valves are custom designed to the unique and demanding service conditions where standard valve products do not perform, says the company. The Stargate-O-Port-Valve valves are rugged high performance valves in process applications with high temperature, shock waves, and aggressive process media. Features include sizes up to 72 inches and service pressures up to 2500 pounds. The valves are available in stainless steel, hastelloy, inconel, titanium, or any material available in plate form.
