

## All-Okuma Wheel Cell

Okuma America Corporation

**Okuma America**

**Corporation** (Charlotte, NC) has announced the launch of the new All-Okuma wheel cell. The new wheel cell includes the new MB-56VA-AW aluminum wheel drilling machine – designed to deliver the reliability of Okuma lathes in a dedicated machining center/drill, says the company. Also included are two Okuma CNC lathes in a choice of sizes, a FANUC robot, and a variety of conveyance options, allowing for a customized cell configuration. All three Okuma machines feature the THINC®-OSP open architecture CNC control for easy integration, enhanced functionality and accessibility to third-party applications. The new wheel cell is designed to enable wheel manufacturers to increase productivity and efficiency while minimizing downtime.
