Grade 100 Sling Chain

Harrington Hoists, Inc.

Harrington Hoists, Inc. (Manheim, PA) recently released super strong, Grade 100 Sling Chain, which is used to make chain slings when appropriate sling fittings are attached, says the company. Typical applications requiring sling chain are those involving the lifting of heavy loads or repetitive lifting situations in construction, foundries, steel mills, and heavy machining processes. Harrington Grade 100 Sling Chain is durable, flexible and will tolerate a wide range of temperatures, the company says, and is exceptionally economical due to its long wear life and is easy to inspect, handle, and store. This product is currently offered in three chain diameters: 9/32 inches (7 millimeters), 3/8 inches (10 millimeters), and 1/2 inches (13 millimeters).
