

High Quality Flood Lighting

Magnalight

The **Magnalight** (Kemp, TX)

WALBL-1000WMH boiler light provides 110,000 lumens of high quality flood lighting in a versatile wheeled tower design that allows effective illumination in large scale maintenance activities, says the company. The WALBL-1000WMH features a maneuverable mounting system that includes an extra heavy base for stable placement, four locking solid wheels that can roll over steel grate flooring, and an extendable tower arm that can be adjusted vertically and angled to fit the height of common boiler access doors. This light is designed to fold over and can be lock into a variety of angled positions to allow operators to extend the lamp head through the door and illuminate the boiler area below.
