

Ride-On Floor Scraper

BlastPro Manufacturing

Niagara Machine is introducing **BlastPro Manufacturing's** (Erie, PA) new BRB-1500 ride-on floor scraper to the company's line of industrial flooring equipment. The BRB-1500 is a battery powered, ride-on floor scraper. This state-of-the-art machine is all electric with zero emissions, says the company, and it has the capability to maneuver in tight areas. The BRB-1500 can remove water proofing membranes, tile, carpet, vinyl, hardwood flooring, thin set adhesives, rubber, elastomeric coatings, sports flooring, and pool deck coatings. The low position of the operator offers comfortable operation and excellent work surface visibility. The BRB-1500 does all this without the need of propane tanks.
