Eye Wash Floor Tape

InSite Solutions

InSite Solutions (Wake

Forest, NC) has launched a new product, the Floor Marking Tape Kit for Eye Wash Stations, and announced they are offering new customers the opportunity to receive one complementary kit during Workplace Eye Wellness month in March. This new floor marking kit helps employees to know the location for Eye Wash Stations. The new Floor Marking Tape Kit for Eye Wash Stations is made with pre-cut strips of Superior Mark floor tape. Stop-painting.com manufactures Superior Mark, which is a unique floor marking tape that features beveled edges, a recessed adhesive, and is specifically designed to withstand the abusive environments of industrial facilities. Superior Mark is available in pre-cut strips that allow for rapid installation of box shaped floor markings. This floor marking kit can be installed in just a few minutes by cleaning the floor with alcohol, and then peeling and sticking down three pre-cut pieces of highly visible and durable tape.

Check it out at stop-painting.com [1].
