

Pongo Safety Glasses

Galeton

Galeton (Mansfield, MA) has recently added Pongo Safety Glasses with Smoke Lens to their line of protective eyewear. The new Pongo Safety Glasses include vents at the temples to help keep workers cool on the job. Plus, the super light-weight frame, soft rubber nose pieces, and rubberized temple arms aid in comfort while keeping the glasses in place, the company explains. Pongo Safety Glasses with smoke lens feature a brushed black finish, filter UV rays, and like all Galeton brand safety glasses, are independently third-party tested in the USA to meet ANSI Z87+ 2010.

For more information on these or any of Galeton's products, visit www.galeton.com [1].
