

Self-piercing FAS-NER®

AKH Inc. (Danville, IN) has introduced the AKH Painted FAS-NER®. Eliminate spot welding and riveting with a self-piercing AKH FAS-NER. The FAS-NER color is matched to the color of the user's painted assembly, allowing for the elimination of post-paint operations, says the company. AKH's process allows for fastening directly into pre-painted material with systems ranging from a single hit system to completely automated systems.
