

X65 Conveyor

FlexLink

With the launch of the new X65 conveyor, **FlexLink** (Göteborg, Sweden) takes the performance of conveyors to new and higher levels offering lower total cost of ownership, a drastically lower noise level, and an innovative design for the future, says the company. The development of the new X65 conveyor platform was done with input from leading end users and OEMs to meet the requirements of tomorrow, while offering added value to the needs of today. The X65 conveyor is designed for low friction, low power consumption, and a long service life. In addition, FlexLink is introducing new high efficient drive technology to further reduce power consumption.
