Compact, Rugged LED

Larson Electronics

The HAL-31L-LV Class 1 Division 2 low voltage LED light from **Larson Electronics** (Kemp, TX) provides high output illumination in a compact, yet rugged explosion proof approved design. Rated IP66 waterproof and constructed of machined aluminum with an unbreakable polycarbonate lens, this LED light is extremely durable and resistant to the effects of water and dampness, says the company. The small size and aluminum construction makes this unit light weight and ideal for installation in areas where space is limited. Larson Electronics also offers a choice of beam configurations including a wide angle 100 degree beam for illuminating large areas and a 30 degree spot beam to produce a long reaching flood of light
