

## IMTSTV: National Engineers Week

IMTSTV

As part of National Engineers Week, AMT partnered with the SME Education Foundation, Gardner Business Media, and *Modern Machine Shop* magazine to produce a video titled "Women in Engineering," featuring Becky Miller, a Quality Control Engineer at GE Aviation. The purpose of this video is to educate young women about the possibilities offered by a career in manufacturing. For more information, visit [www.IMTS.com](http://www.IMTS.com) [1].

*If you're having trouble watching this video, try downloading the latest version of [Flash Player](#) [2] or contacting your IT department.*
